

# Lateral, Vertical and Shelf Filing Systems

**tennsco**  
SYSTEMS FOR SUCCESS

### **Solid Support**

Reinforcing steel is welded directly to the back panel for maximum strength and rigidity.

### **Interlock System for Safety**

A mechanical interlock system prevents you from opening more than one drawer at a time, eliminating the danger of tipping.

### **Long-Lasting Finish**

A good looking powder painted finish is baked-on for durability.

### **Quiet and Snag-Free**

A plastic drawer edge liner lets you move hanging files quietly without catching.

### **Welded for Strength**

Drawers are welded for superior strength.

### **Central Locking**

A single lock to control all drawers and doors is standard equipment on every unit. All locks come with two keys.

### **Quiet, Effortless Movement**

Drawers glide on heavy duty, full progressive, lifetime warranted ball bearing suspensions.

### **Easy Filing - Standard**

Standard file rods are adjustable for letter, legal, and EDP filing in a variety of configurations. Drawer bottoms are also slotted to accommodate dividers.

### **Rigid Drawers are Quieter**

Drawer fronts are reinforced with a welded inner panel for rigidity and quiet operation.

### **Designed for Heaviest Use**

Formed channel on the drawer bottom gives additional strength and extends the life of the drawer.

### **2 Styles of Recessed Pull**

Choose from short pull with black insert or full width integral recessed pull. Both pulls equipped with adjustable label holder.

### **A Sturdier Frame**

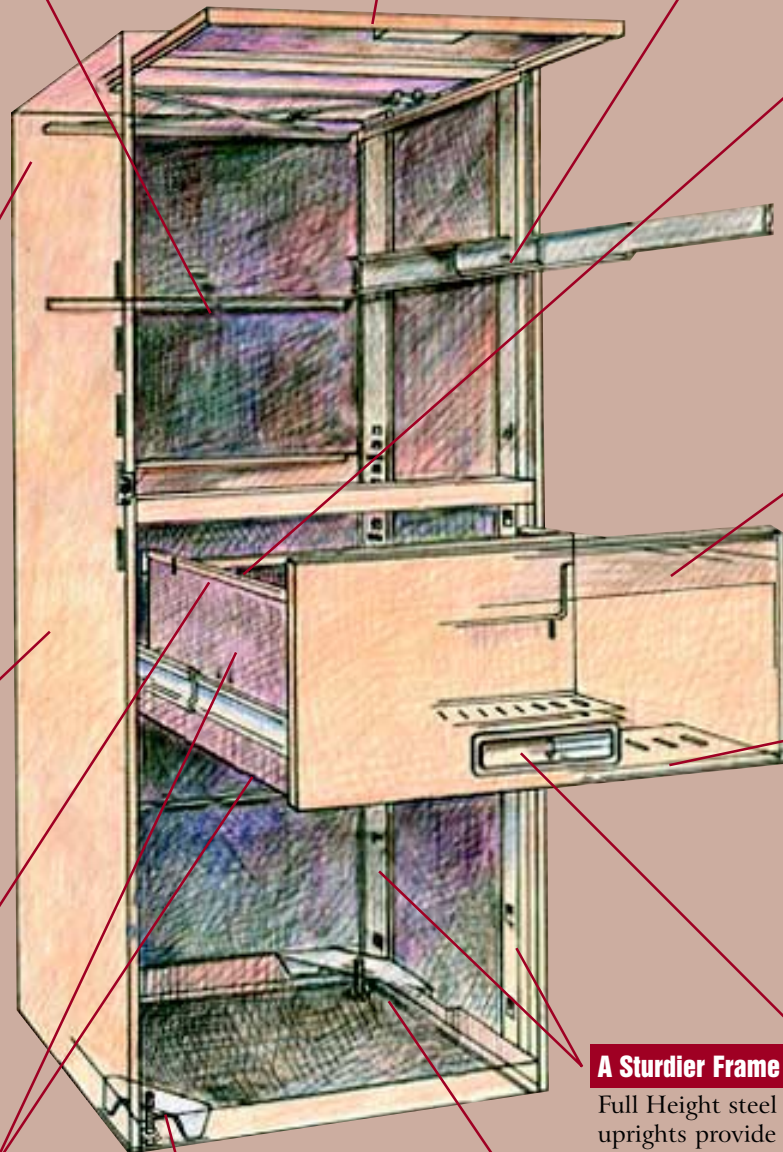

Full Height steel uprights provide the basis for an exceptionally stable frame.

### **Extra Bracing**

Heavy duty corner gussets are welded in to brace the entire cabinet.

### **Maximum Stability**

Leveling glides, located at all four corners of the file, provide a steady base for greater stability.

## Lateral Filing Systems

*When office space is limited, Tennsco lateral files provide unlimited solutions. The practical design of these attractive files not only hugs the wall, saving valuable floor space, but also allows easier, more efficient access to your most-used files. You'll appreciate their solid construction - and their solid value.*

### Convenient Posting Shelf

An optional hideaway posting shelf provides a handy spot to make notes or put down materials while you look for files in a five drawer unit.

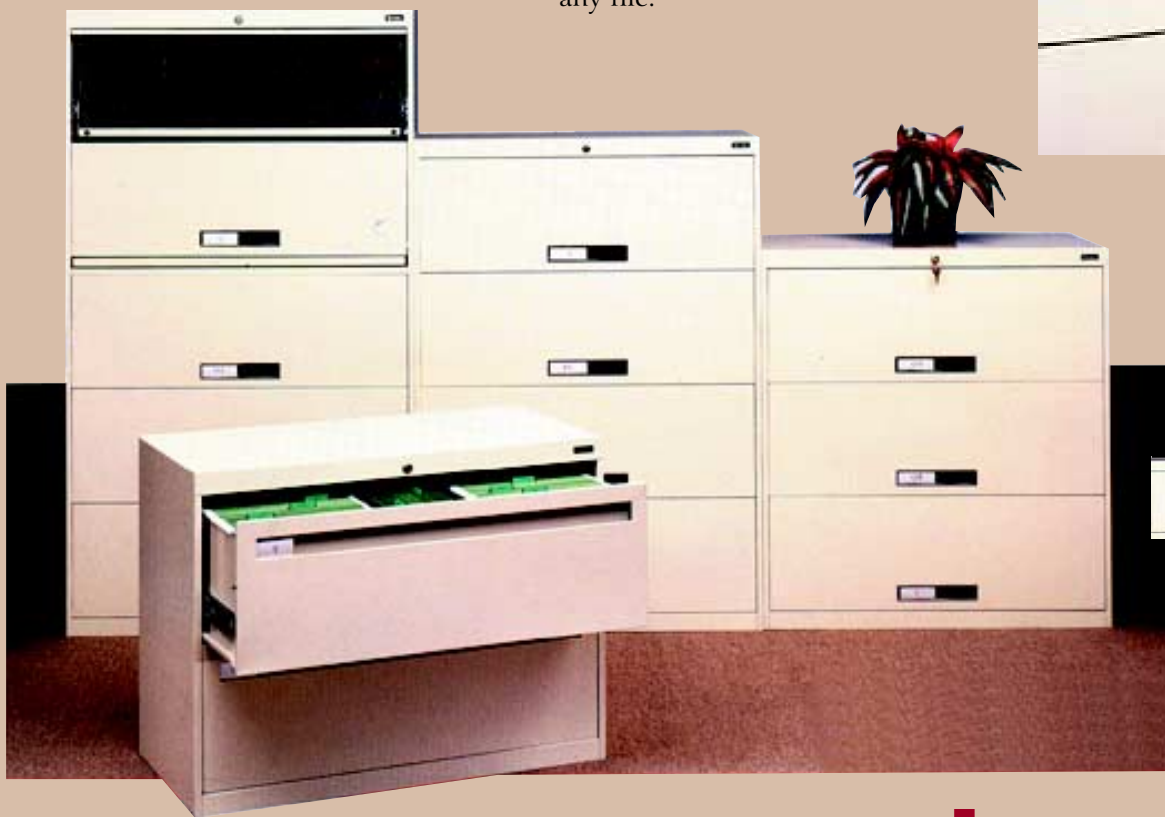

### Retractable Door

Spring assisted doors automatically retract with the slightest touch to keep aisles clear and give you complete access to your files.

### Attractive Laminate Tops

Self-edged laminate tops add another work surface to your office and are available in sizes to top off any file.

Choose either the short pull handle pictured above or the long pull handle shown on the left.

# tennsco

SYSTEMS FOR SUCCESS

## Overfiles

Increase your storage capacity by turning unused space above your lateral files into productive space.

Tennsco's overfiles offer you the additional storage you need and the safe, sturdy construction your business demands.

## Concealed Storage Solution

Keep supplies or materials of all kinds close at hand but neatly out of sight with sturdy sliding doors.

### Choice of Single or Double Units

Overfiles are available in single or double-high units to help you expand your storage space as needed.

### Stackable Ease

Fast and easy to install, overfiles can be stacked right on top of your lateral files for instant additional storage!

### Sliding Doors

Enjoy easy access to papers and supplies with smooth sliding doors that feature easy-to-grip recessed handles

### Adjustable Shelf

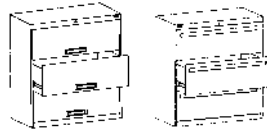

Versatile and practical, sturdy adjustable shelf – in double-high units only – allows you to store items of all sizes to fit your changing needs.

SYSTEMS FOR SUCCESS

### Unit Options

Choose from open units without doors or closed units with doors for added protection of materials.

### Safe and Secure

Lock is standard on door models to protect valuable documents and control access as needed.

### Retractable Doors

Retrieve files quickly and easily with spring-assisted doors that automatically retract with the slightest touch to keep aisles clear and give you complete access to files.

### Adjustable Levelers and Glides

Adjustable levelers and glides on each unit ensure sturdiness and smooth operation.

### Convenient Dividers

Dividers adjust in 1" increments to meet your specific filing needs. Each unit is shipped with 3 dividers per shelf and extra dividers are also available.

### Handy Label Holders

Convenient label holders are provided on closed units for quick and easy location of files as needed.

### Versatile Storage

Each unit allows you to store both letter and legal size folders in the same unit.

## Fixed Shelf Filing Units

Keep a maximum amount of files in a minimum amount of space with either open or closed fixed shelf filing units. You'll save valuable floor space and enjoy easy access to your files. Choose Open Units for instant visual access to materials. Perfect for color-coded filing systems, books, manuals, etc. Use Closed Units when confidentiality, security or protection of materials is a paramount concern.

## Recessed Door Pull

Easy-grip recessed door pulls on closed units allow you to effortlessly open any door to reveal the shelf's entire contents.

## Retractable Door

Spring assisted doors automatically retract with the slightest touch to keep aisles clear and give you complete access to your files.

## Strong, Versatile Shelves

Heavy gauge welded construction ensures stability and strength to accommodate numerous files or heavy books and binders.

Choose from fixed shelf units with or without retractable doors.
