SPACEGUARD P R O D U C T S ™

SG2000

High Security Partition Systems

Specially engineered for increased versatility and customization.

If you need a modular, stackable system with the ability to work beyond a traditional partition system, you need SpaceGuard 2000. With a structure that is as versatile and easy to use as it is durable. SpaceGuard 2000 is ideal for additional heights, robotic security, or DEA certified enclosures. **Available in welded or woven wire mesh.**

Complete installation instructions and attachment hardware are included. Please specify color. Stock color is gray. Other colors available are blue, yellow, black, red, and green. Please allow longer lead times for non-stock colors.
